

Skala 1:10

As a CMYK color matching system (PMS) for reproducible color, it is only a reference system and these are not given below. It is not possible to observe that colors may appear different depending on the color of the substrate and the material of the product. We can never guarantee exact CMYK colors.

This proof only illustrates the placement and proportions of the marking and should be considered as an indication of the final product. We take no responsibility for errors not corrected.
